- House no.410, street: D4/2
,Block D, Police
Foundation, Rawalpindi

Skills

- Communication skills
- Project management
- Organization of projects
- Technical skills
- Teamwork
- Research
- Critical Thinking

Language

- English (Good)
- Urdu (Good)

Summary

A self-motivated Computer Science undergraduate with a versatile foundation in software engineering principles and diverse programming paradigms. Eager to learn, grow, and contribute to innovative projects across the tech industry. Skilled in multi-platform application development, system design, and creative problem-solving, with a proven ability to adapt to varying technological environments and deliver practical, user-focused solutions.

Education

Bachelor of Computer Science	2023-Present
School of Computer Science Iqra University H-9	
Intermediate	2021-2023
ICS Concordia Collage DHA	
O-Level	2018-2021
Beaconhouse School	2006-2018

Projects

Full-Stack Gym Management System

- Python, Tkinter, SQL
- Engineered the back-end infrastructure for a comprehensive management system utilizing SQL DML and DDL commands.
 - Designed and integrated a graphical user interface (GUI) front-end utilizing Python and Tkinter to seamlessly interact with the database.

SecurePass Pro Application

- Python,Tkinter
- Developed a robust, GUI-based password generator desktop application to enhance user security.
 - Implemented core functionalities for generating secure credentials and managing desktop clipboard utilities.

Games Portal Interface Redesign

- Figma, UI/UX Design
- Created a comprehensive website redesign using Figma to modernize visual aesthetics and streamline user navigation.
 - Authored a detailed human-computer interaction evaluation report, utilizing heuristic principles to implement and justify targeted usability improvements for a games portal.

FPS Chooting Game

- Scratch
- Created a 2D first person shooting game using Scratch visual programming language.
 - Implemented funtion such as scoreboard, kills, and time duration of gameplay to enhance the user gameplay experience overall.
